Suggestions, if any

Good

Expect more sessions in SEM to get familiarize about the data analysis.
Useful programme but need more hours of practice and training to succeed next level
Need Extra sessions
Can have more sessions
Very useful session. Thank you.
Informative session
Very useful session
Good
Conducting two or more sessions on SEM (Structural Equation Modeling) can be super beneficial for gaining in-depth knowledge.
New knowledge gained, but the FDP would have been provided practical experience that enables participants to prepare and publish research papers.
To have an extension programme for 2 days
We should give him more time or hold two separate sessions, so he can focus better and explain everything clearly.
